Energy efficiency rating	ТВС
CO2 emissions	ТВС
Agency fees	Paid by the seller

Property Description

Proposed by an experienced local builder, Les Granges is a fantastic opportunity to create a brand new alpine chalet in Morzine, according to your own style and needs! Flexibility of the design on each floor of these three chalets means that the surface area of 136m2 can be adapted to suit your family's requirements, or for maximizing rental potential. Whilst plans are proposed, the developer is also available to discuss the precise requirements that you have for the space within your chalet, giving you the potential to adapt the property to fit with your particular mountain project!

The ground floor of each chalet will house an internal garage together with a generous studio area with fitted bathroom. At 27m2, the studio provides an ideal additional sleeping space, home cinema, exercise studio, children's play room, or home office.

On the second floor, a generous open-plan living space has room for dining and relaxing, as well as a fully equipped kitchen of your choice. There is also a guest wc. The living area opens onto a full-length balcony, perfect for admiring the views over the local mountainsides.

By reducing the living space, there is potential to include a further bedroom at this level if that would better suit your needs, and all additional partition walls are included in the advertised price.

Upstairs, the space can be divided according to the owner's wishes to provide either three or four bedrooms with a family bathroom, and useful cupboard storage. Since the chalets have a balcony on both front and rear at this level, each bedroom will have its own balcony access.

All fittings and fixtures in the chalets are included in the stated price, including a fully fitted kitchen with oven, hob, extractor fan, microwave oven and dishwasher, and the chalets will be delivered fully finished as to wall and floor coverings including tile and parquet chosen by the buyer from a wide selection of high quality materials.

A small private garden surrounds each chalet, with all green areas carefully landscaped to ensure that there is nothing to do but enjoy your property when you move in!

Plan non contractuel, susceptible de modifications ou d'adaptations suivant impératif technique.
