Procédure en cours	No
Energy efficiency rating	TBC
CO2 emissions	TBC
Agency fees	Paid by the seller

Property Description

By choosing Le Kairn, you are opting for a residential life that combines the charm of an authentic village with the benefits of a new residence. Well-designed apartments, optimal brightness, high-quality amenities, private outdoor spaces, parking spaces, and nearby amenities make this residence an ideal choice for your property purchase in Montriond.

The project includes apartments ranging from studios to 3 bedroom apartments.

The price of the apartments vary from 444,000 euros for a one-bedroom apartment with a sleeping area, a bathroom, and a surface area of 54.01m², to 1,087,000 euros for the largest three-bedroom apartment with a shower room and a bathroom, with a surface area of 110.91m². The price of each apartment is "ready to use" and includes all floor coverings, wall finishes, fully equipped kitchens, and bathrooms.

Thanks to the variety of options included in the purchase price, you can customise your apartment according to your tastes from a wide choice of tiles, floor coverings, and kitchen styles. In addition to these elements, each kitchen is equipped with a dishwasher, oven, hob, extractor hood, and refrigerator with freezer compartment. You can also choose from a wide range of worktops and kitchen backsplashes.

Each apartment has a large balcony or private terrace.

Parking spaces are organised underground and outdoors, as well as ventilated caves underground, providing comfort to residents. These caves can be used for storing sports equipment such as mountain bikes or skis. Additionally, a communal, equipped, and secure bicycle storage area is provided above ground.

Apartment B001 (approx. 54m²) is located on the ground floor of Chalet B. It has one bedroom plus a bunk room, and a bathroom with shower and laundry space, and wc. The living area with open-plan kitchen is around 22m² with access onto the super 13m² private terrace. Apartment B001 is sold with parking and a private cave, along with access to the shared bike store.

There are many advantages to buying off-plan: new purchases benefit from reduced notary fees (around 2.5% of the purchase price instead of around 7.5%), which represents significant savings. Payments are also staggered throughout the construction process as work progresses, so you can spread the costs over a given period of time.

Finally, new constructions are covered by numerous guarantees, both financial and structural, so you are fully protected from the moment you sign the reservation contract until 10 years after completion.

Naturally, buying new also means that the construction will comply with the latest environmental and insulation standards, ensuring energy savings and being environmentally friendly.

The Le Kairn development will be delivered during the fourth quarter of 2026.

The property is covered by the copropriété rules.
