Property Description

A rare opportunity indeed: for sale is a traditional mountain alpage dating back to the 1800s, nestled in the peaceful hills above Chevenoz. The property requires a complete renovation, but the potential here is truly exceptional.

From its elevated position, the panoramic views over the Vallée d'Abondance are breathtaking. The surrounding tranquillity is a luxury rarely found in today's world — a true escape into nature.

Access is via a 4x4 track (high clearance required) or a pleasant 15–20 minute walk from the nearest parking area at the end of the tarmacked road.

As the photos show, the property is currently uninhabitable — except perhaps for cows! However, it offers generous proportions, with approximately 100 m² on the ground floor and a barn with a footprint of around 126 m², high enough to allow for the creation of a third level if desired.

The owners have confirmed the presence of a natural spring on the land, ensuring a reliable supply of fresh water. Combined with the installation of solar panels, this property offers an exciting opportunity for true off-grid mountain living.

The property also comes with over 6000 sq m of sunny, agricultural land.
